## Let's Earn Happiness

Every child is unique, and factors contributing to their happiness may vary. Additionally, cultural, social, and individual differences can influence what brings happiness to a child. Being attuned to a child's needs, providing a nurturing environment, and allowing them to express themselves contribute to their overall happiness and well-being.

APTITUDE TEST

## Let's Check Yourself

Aptitude is vital for children as it helps identify their strengths, tailors learning to their needs, guides career choices, boosts confidence, motivates learning, enhances problem-solving skills, provides personal fulfillment, aids effective decision-making, and contributes to building a well-rounded individual. A holistic approach, considering interests and values, ensures comprehensive child development..

# Welcome To Goofyy's Health

## Healthy Veggies

Prioritize vegetables for vital nutrients, fiber, and antioxidants, supporting health and reducing chronic disease risks. In contrast, junk foods, high in empty calories, unhealthy fats, and sugars, promote obesity and health problems. A balanced diet with vegetables is essential for long-term well-being and positive environmental impact.

### Veggie

Beyond exposure to green leafies, making baby food gives you more control over offering lots of different flavors and textures early, which can help little ones develop food preferences in the future—and, fingers crossed—hopefully reducing the likelihood of picky eating.

### YUMMM

Vegetables give your child energy, vitamins, antioxidants, fibre and water. They help protect your child against chronic diseases later in life, including heart disease, stroke and some cancers. A healthy diet means eating plenty of vegetables, plus a wide variety of foods from the other main food groups.
